INTRODUCING PERIODS 3A AND 3B

After the tremendous reaction to our first one week programs in 12 years (held during July Camp 2010 and known as Periods 1A and 1B), we have decided to open a limited number of spaces in August Camp 2011 (during the first two weeks) and launch Periods 3A and 3B.

Periods 3A and 3B are to be held during the first two weeks of August Camp, concurrent with Period Three. Periods 3A and 3B are seven day/six night periods, and are open to first time or younger campers aged 8-13 years.

Much like Period Five and WEEnonah, the program structure for Periods 3A and 3B focuses on the cabin experience. Campers live in a cabin with other boys or girls of the same age, most of whom are attending Camp for the first time. Alongside their counsellors and cabin groups, campers sample the very best of the traditional Wenonah program. Campers take part in cabin-based activities, which serve as an introduction to many popular Camp program areas (canoeing, kayaking, arts & crafts, tennis, archery, climbing, outdoor adventure). The schedule is rounded out by other favourite Camp programs.

A veteran Wenonah staff member is assigned as a counsellor to each Period 3A and 3B cabin group. The counsellor lives in the cabin with campers, allowing them to closely supervise the camper experience while developing meaningful and nurturing relationships with their campers.
